Temperature Range	-32°C / +55°C
Adjustable Cheek Piece	Standard
Muzzle Brake	Standard
Stock	Height Adjustable, Right Folding
Provision for Night Vision Attachment	Optional
Provision for Thermal Imaging Attachment	Optional

Truvelo has recently added the 20x110 Anti Material Sniper Rifle to its range of small arms. Due to the large calibre, this rifle is absolutely unique and Truvelo is one of the few weapon manufacturers in the world to design and produce a sniper in this calibre. The rifle tripod mount has built in recoil dampers to help reduce the rifle's recoil. Due to this the sniper will be able to shoot even this large calibre rifle with ease. Electronic guidance and communications equipment and GPS and radar systems, which are found on modern tanks and medium to heavy skinned vehicles, can be eliminated with this specialised rifle. Design features include a integrated dampened recoil stock assembly, adjustable grip, adjustable cheek piece, stanag picatinny rails and adjustable tripod.

STANDARD RIFLE (INCLUDED):

Muzzle Brake, Operators Manual (English), Tri-Pod, Firing Pin Protrusion Gauge.

Truvelo reserves the right to change products at any time without prior notice.
